CORPORATE PROFILE

General Description

Kite Realty Group Trust is a full-service, vertically integrated real estate company engaged primarily in the development, construction, acquisition, ownership and operation of high-quality neighborhood and community shopping centers in selected markets in the United States. We are organized as a real estate investment trust ("REIT") for federal income tax purposes. As of December 31, 2010, we owned interests in 61 properties totaling approximately 9.1 million square feet and an additional 0.3 million square feet in two properties currently under development.

Our strategy is to maximize the cash flow of our operating properties, successfully complete the construction and lease-up of our development portfolio and identify additional growth opportunities in the form of new developments and acquisitions. New investments are focused in the shopping center sector, although we may selectively pursue commercial development or acquisition opportunities in markets where we currently operate and where we believe we can leverage existing infrastructure and relationships to generate attractive risk-adjusted returns.

IMPORTANT NOTES

Interim Information

This Quarterly Financial Supplement contains historical information of Kite Realty Group Trust (“the Company” or “KRG”) and is intended to supplement the Company’s Annual Report on Form 10-K for the year ended December 31, 2010 to be filed on or about March 15, 2011, which should be read in conjunction with this supplement. The supplemental information is unaudited, although it reflects all adjustments which, in the opinion of management, are necessary for a fair presentation of operating results for the interim periods.

Forward-Looking Statements

This supplemental information package contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Such statements are based on assumptions and expectations that may not be realized and are inherently subject to risks, uncertainties and other factors, many of which cannot be predicted with accuracy and some of which might not even be anticipated. Future events and actual results, performance, transactions or achievements, financial or otherwise, may differ materially from the results, performance, transactions or achievements expressed or implied by the forward-looking statements. Risks, uncertainties and other factors that might cause such differences, some of which could be material, include, but are not limited to:

- national and local economic, business, real estate and other market conditions, particularly in light of the current recession;
- financing risks, including the availability of and costs associated with sources of liquidity;
- the Company’s ability to refinance, or extend the maturity dates of, its indebtedness;
- the level and volatility of interest rates;
- the financial stability of tenants, including their ability to pay rent and the risk of tenant bankruptcies;
- the competitive environment in which the Company operates;
- acquisition, disposition, development and joint venture risks;
- property ownership and management risks;
- the Company’s ability to maintain its status as a real estate investment trust (“REIT”) for federal income tax purposes;
- potential environmental and other liabilities;
- impairment in the value of real estate property the Company owns;
- risks related to the geographical concentration of our properties in Indiana, Florida and Texas;
- other factors affecting the real estate industry generally; and
- other risks identified in reports the Company files with the Securities and Exchange Commission (“the SEC”) or in other documents that it publicly disseminates, including, in particular, the section titled “Risk Factors” in our Annual Report on Form 10-K for the fiscal year ended December 31, 2009 and in our quarterly reports on Form 10-Q.

The Company undertakes no obligation to publicly update or revise these forward-looking statements, whether as a result of new information, future events or otherwise.

Funds from Operations

Funds from Operations (FFO) is a widely used performance measure for real estate companies and is provided here as a supplemental measure of operating performance. We calculate FFO in accordance with the best practices described in the April 2002 National Policy Bulletin of the National Association of Real Estate Investment Trusts (NAREIT), which we refer to as the White Paper. The White Paper defines FFO as net income (determined in accordance with generally accepted accounting principles (GAAP)), excluding gains (or losses) from sales of depreciated property, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures.

Considering the nature of our business as a real estate owner and operator, we believe that FFO is helpful to investors in measuring our operational performance because it excludes various items included in net income that do not relate to or are not indicative of our operating performance, such as gains or losses from sales of depreciated property and depreciation and amortization, which can make periodic and peer analyses of operating performance more difficult. FFO should not be considered as an alternative to net income (determined in accordance with GAAP) as an indicator of our financial performance, is not an alternative to cash flow from operating activities (determined in accordance with GAAP) as a measure of our liquidity, and is not indicative of funds available to satisfy our cash needs, including our ability to make distributions. Our computation of FFO may not be comparable to FFO reported by other REITs that do not define the term in accordance with the current NAREIT definition or that interpret the current NAREIT definition differently than we do.

Net Operating Income

Net operating income (NOI) is provided here as a supplemental measure of operating performance. NOI is defined as property revenues less property operating expenses, excluding depreciation and amortization, interest expense, impairment, and other items. We believe this presentation of NOI is helpful to investors as a measure of our operational performance because it is widely used in the real estate industry to measure the performance of real estate assets without regard to various items, included in net income, that do not relate to or are not indicative of operating performance, such as depreciation and amortization, which can vary depending upon accounting methods and book value of assets. We also believe NOI helps our investors to meaningfully compare the results of our operating performance from period to period by removing the impact of our capital structure (primarily interest expense on our outstanding indebtedness) and depreciation of the basis in our assets from our operating results. NOI should not, however, be considered as an alternative to net income (determined in accordance with GAAP) as an indicator of our financial performance.

- 1 Same Property analysis excludes Courthouse Shadows, Four Corner Square, Rivers Edge, and Bolton Plaza properties as the Company pursues redevelopment of these properties.
- 2 Same Property net operating income is considered a non-GAAP measure because it excludes net gains from outlot sales, write offs of straight-line rent and lease intangibles, bad debt expense and related recoveries, lease termination fees and significant prior year expense recoveries and adjustments, if any.

The Company believes that Net Operating Income is helpful to investors as a measure of its operating performance because it excludes various items included in net income that do not relate to or are not indicative of its operating performance, such as depreciation and amortization, interest expense, and impairment, if any. The Company believes that Same Property NOI is helpful to investors as a measure of its operating performance because it includes only the NOI of properties that have been owned for the full period presented, which eliminates disparities in net income due to the redevelopment, acquisition or disposition of properties during the particular period presented, and thus provides a more consistent metric for the comparison of the Company's properties. NOI and Same Property NOI should not, however, be considered as alternatives to net income (calculated in accordance with GAAP) as indicators of the Company's financial performance.

1 Other property related revenue for the three months ended December 31, 2010 includes net gains on land and outlot sales of \$1.0 million.

2 Parking revenue, net, represents the net operating results of the Eddy Street Parking Garage and KR Washington Parking.

3 Recoverable expenses include total management fee expense, a portion of which is recoverable. Non-recoverable expenses primarily include bad debt and legal expense.

4 In December 2009, the Company transferred its Galleria Plaza operating property to the ground lessor. The Company recognized a non-cash impairment charge of \$5.4 million to write off the net book value of the property in September 2009. Since the Company ceased operating this property during the fourth quarter of 2009, it was appropriate to reclassify the non-cash impairment loss and the operating results related to this property to discontinued operations for each of the periods presented above.

5 "Recovery Ratio" is computed by dividing tenant reimbursements by the sum of recoverable property operating expense and real estate tax expense.

6 Includes write-off of \$190,669 of deferred loan fees in connection with the early payoff of the Company's unsecured term loan.

* Property consists of ground leases only and, therefore, no Owned GLA. 54th & College is a single ground lease property; Greyhound Commons has two of four outlots leased.

- All properties are wholly owned, except as indicated. Unless otherwise noted, each property is owned in fee simple by the Company.
- Owned GLA represents gross leasable area that is owned by the Company. Total GLA includes Owned GLA, square footage attributable to non-owned anchor space, and non-owned structures on ground leases.
- Percentage of Owned GLA Leased reflects Owned GLA/NRA leased as of December 31, 2010, except for Greyhound Commons and 54th & College (see *).
- This property is divided into two parcels: a grocery store and small shops. The Company owns a 25% interest in the small shops parcel through a joint venture and a 100% interest in the grocery store. The joint venture partner is entitled to an annual preferred payment of \$96,000. All remaining cash flow is distributed to the Company.
- The Company owns a 60% interest in this property through a joint venture with our partner that manages the property.
- The Company does not own the land at this property. It has leased the land pursuant to two ground leases that expire in 2017. The Company has six five-year options to renew this lease.
- The Company does not own the land at this property. It has leased the land pursuant to a ground lease that expires in 2012. The Company has six five-year renewal options and a right of first refusal to purchase the land.
- The Company owns and manages the following properties through joint ventures with third parties: Beacon Hill (50%); Cornelius Gateway (80%); Estero Town Commons (40%); Bayport Commons (50%); and Sandifur Plaza (95%).
