Proposed Transaction with Inland Diversified Real Estate Trust

February 2014

# Transaction Overview

## Transaction Consideration

- Kite Realty Group Trust (“Kite”) to merge with Inland Diversified Real Estate Trust (“Inland Diversified”) in a stock-for-stock transaction
- Total transaction value of ~\$2.1 billion and ~\$1.2 billion equity consideration
- 100% stock-for-stock transaction; each share of Inland Diversified will be converted into Kite common stock based on the following exchange ratio:
  - 1.707x up to a Kite reference trading price (“Kite Reference Price”) of \$6.36 (equates to an offer price per Inland Diversified share of \$10.50 based on Kite’s closing price of \$6.15 on Friday, February 7, 2014)
  - Floating ratio between a Kite Reference Price of \$6.36 and \$6.58 (equates to an offer price per Inland Diversified share of \$10.85)
  - 1.650x if the Kite Reference Price is greater than \$6.58
  - The Kite Reference Price is the volume-weighted average price for Kite for the ten consecutive trading days ending on the third day before Inland Diversified’s shareholder meeting

## Pro Forma Ownership

- Based on maximum and minimum exchange ratio of 1.707x to 1.650x, respectively:
  - 40.6% to 41.4% Kite shareholders
  - 59.4% to 58.6% Inland Diversified shareholders

## Governance

- Company will retain the name Kite Realty Group Trust
- Kite to continue to trade on the NYSE under the ticker “KRG”
- Kite management team to lead the combined company and will remain headquartered in Indianapolis
- Six Kite board members and three Inland Diversified board members

# Transaction Overview (cont'd)

---

## Sale of Inland Diversified Assets

- Pre-closing
  - Inland Diversified is under contract to sell its single-tenant net lease portfolio to Realty Income Corporation for \$503 million, which is expected to close prior to the transaction
  - Inland Diversified is required to complete a 1031 Exchange on certain single-tenant assets and redeploy \$72 million of capital before closing of the transaction
- Post-closing, Kite plans to sell certain non-core assets and utilize the proceeds to further delever the company's balance sheet
  - Kite to dispose of three multifamily assets
  - Kite to sell Inland Diversified's securities portfolio, which is comprised of other publicly traded companies' securities (primarily preferred securities and bonds)

## Shareholder Vote / Closing

- Kite and Inland Diversified shareholder votes
- Expected closing in late Q2 or Q3 2014

# Strategic Rationale

**The transaction presents a unique opportunity to acquire a high-quality portfolio and transform Kite into a premier shopping center REIT**

## High-Quality Portfolio with Attractive Pricing

- Attractive portfolio in terms of asset quality, tenant base and geography
  - Desirable locations with higher annualized base rent (“ABR”) and strong demographics (3-mile average household income of ~\$71,000; 2013 population density of ~67,000)
  - Stabilized portfolio (95.3% occupancy as of 12/31/2013)
  - Diverse tenant base (top 10 tenants comprise 23.9% of total ABR)
  - Approximately 10% of ABR generated from ground leases from high-quality tenants, including Wal-Mart and Sam’s Club
- ~6.6% 2014E cash cap rate and implied purchase price of approximately \$195 PSF <sup>(1)</sup>

## Increased Size, Scale & Diversity

- Significantly increases the size and scale of the business in core markets and provides entry into new attractive markets
  - Number of properties increases from 74 to 131
  - Total portfolio size increases from 10.1 million owned square feet to 20.3 million owned square feet
- Increased portfolio size provides leasing leverage with national tenants
- Potential to improve operations and create value via redevelopment / development
- Inland Diversified’s portfolio is complementary to Kite’s based on geography with approximately 43% of Inland Diversified’s ABR generated from overlapping states
- Provides entry into new, attractive markets such as Westchester (NY), Bayonne (NJ), Las Vegas (NV), Virginia Beach (VA) and Salt Lake City (UT); ~36% of Inland Diversified’s ABR

1. Cap rate based on management’s allocation of property management expenses.

# Financial Rationale

**Transaction represents a continuation of Kite's strategy to strengthen its balance sheet, increase its liquidity profile, generate cost savings and further de-risk its business model**

## Enhanced Balance Sheet, Liquidity & Cash Flow

- Strong balance sheet positions the combined company for further growth
- Materially improves leverage, coverage and other credit metrics
  - Net debt to adjusted EBITDA <sup>(1)</sup> expected to improve to approximately 6.5x from 7.3x post transaction, including the contemplated non-core asset sales
  - Well-staggered debt maturity schedule
- Increased operating cash flow, lower leverage and low dividend payout ratio will support future dividend growth
- Substantial increase in public float and shareholder liquidity
- Larger, more diversified company with a flexible balance sheet should result in a lower cost of capital and a path to an investment grade rating

## Cost Savings & De-Risking

- Kite's scalable platform provides for substantial G&A and operating synergies
  - Total synergies of \$17 - \$19 million for the combined company
  - Results in incremental operating expense of \$6 - \$8 million
- Elimination of external manager contracts results in significant cost savings
- Reduces Kite's G&A load as a percentage of asset base and revenues
- Significantly reduces Kite's development/redevelopment exposure as a percentage of asset base and reduces Indiana concentration from 27% to 13% of 2013 ABR

**Transaction is expected to be neutral to 2014E FFO per share, after taking into account substantial deleveraging**

1. Kite calculates its Net Debt to Adjusted EBITDA ratio by taking Kite's share of consolidated debt, after certain adjustments, and dividing that number by its prior quarter's EBITDA annualized, after making certain adjustments thereto. Net Debt to Adjusted EBITDA, adjusted for the proposed transaction, assumes the assumption of Inland Diversified debt and repayment of certain of such debt as described herein, and uses projected 2014 EBITDA reflecting an assumed contribution thereto from the proposed transaction. Adjusted EBITDA, as calculated by Kite, is not comparable to EBITDA reported by other REITs that do not define EBITDA exactly as Kite does.
